Alex Rivera

Data Scientist · alex.rivera@example.com · github.com/alexrivera-example

Summary

Data scientist with 3 years of experience building predictive models and analytics dashboards. Comfortable with Python, SQL, and cloud tools.

Experience

Data Scientist, Brightline Retail — 2022 to Present

- Built a customer churn prediction model in Python and scikit-learn that helped the retention team prioritize outreach
- Responsible for weekly sales reports and dashboards
- Worked on a demand forecasting project with the supply chain team
- Wrote SQL queries against PostgreSQL to clean and aggregate transaction data
- Helped with deploying models

Junior Data Analyst, Harbor Insights — 2021 to 2022

- Created Tableau dashboards for marketing campaign performance
- Ran A/B tests on email subject lines and reported results to stakeholders
- Did data cleaning in pandas for various projects

Projects

- Fine-tuned a BERT model with Hugging Face transformers to classify support tickets
- Containerized a Flask app with Docker for a side project

Skills

Python, SQL, pandas, NumPy, scikit-learn, PostgreSQL, Tableau, Git, Docker, Hugging Face, statistics, A/B testing

Education

B.S. in Statistics, State University, 2021
